Seeking Complete Individual

FREEDOM?

INTRIGUED BY THE EXCITING POTENTIALS OF TOTAL LAISSEZ FAIRE CAPITALISM?

Searching for a society where you may live your life for your own sake, enjoy the fruits of your labors, and voluntarily trade your achievements for the achievements of others?

To our knowledge complete freedom does not presently exist anywhere on earth. But with over 150 independent or near independent nations undergoing constant social change; with modern technology being applied increasingly to modifying natural physical environments, the near-future development of truly free societies is a real possibility.

The monthly Innovator is a newsletter of applied philosophy reporting advanced developments, experiments, and applications of liberty. Other subjects include new concepts in legal philosophy, innovations in personal relations and education, and inventions and technical processes that may significantly effect future societal developments.

For a one year subscription (12 issues) mailed anywhere in the world, send \$2.00 and your name and address to:

INNOVATOR
